DETAILED ACTION

This action is in response to Applicant's amendment filed April 13, 2007. Claims 5-7 have been cancelled. Claims 1-4 and 8-9 are pending in the present application.

Specification

A new title that is clearly indicative of the invention has been submitted. The objection is now withdrawn.

Claim Objections

Applicant has amended claims 1, 5 and 8 to fix the typographical errors as required by the Examiner. The objection is now withdrawn.

Double Patenting

Claims 5-7 have been cancelled; therefore the double patenting rejection is now withdrawn.

Allowable Subject Matter

Claims 1-4, 8 and 9 are allowed.

The Examiner had previously rejected claims 1-3, 5 and 7 under 35 U.S.C 103(a) as being unpatentable over Smith in view of Ferlitsch. However, Applicant has provided evidence

showing that the Ferlitsch reference and the instant application are commonly owned by Sharp Laboratories. Thus, the Ferlitsch reference is not a legitimate reference under 35 U.S.C. 103(a).

In combination with each and every limitation in claim 1, the prior art of record fails to teach an acknowledgment mechanism in the MFP for generating a reply Email, indicating that the readiness specification has been received and entered, and an error message generator in the MFP for generating a reply Email indicating that the readiness specification has not been entered.

Claims 8 and 9 were previously allowed in the Office Action dated January 16, 2007.
